**SQS F08**

# Professional Testing.

Guaranteed ROI: professional testing contributes to reduce cost in a 40%

Duration: 4 days

Intended for those who desire to be dedicated to software testing professionally. You will learn everything you need to run a testing department. Designing, estimating, planning and selecting test strategies and coordinate the team in charge.
Attendees will be able to identify risks and methods to mitigate them. As well as criteria for selecting testing tools or requirements to implement them.

**Previous Requisites: Experience in software testing.**
